DDE Labs is a CDMO specializing in solution through complex injectables and small molecules through biologics with capabilities from formulation through clinical supply manufacturing, QC release, and stability.
**LEAD MOLECULE SELECTION**
- Analytical Research
- Development Assessment
- Lead Molecule Design

**DELIVERY SYSTEM SELECTION**
- Analytical Development
- Preformation
- Delivery System Feasibility
- Formulation PK Screening

**DRUG PRODUCT DEVELOPMENT**
- Formulation Development
- Process Development & Scale-Up
- Analytical Methods Qualification
- Technology Transfer

**CLINICAL TRIAL MATERIALS**
- GMP Fill Finish
- QC Release & Stability Testing
- GMP Manufacture

**NEW!**
- Clinical Trial Materials
- QC Release Testing
- Stability Studies
- GLP Tox Supply

---

**LEADERSHIP WITH EXTENSIVE PHARMA/BITECH EXPERIENCE**

**Christopher A. Rhodes, Ph.D.**
Dr. Chris Rhodes is CEO and founder of Drug Delivery Experts and a pharmaceutical scientist with over 25 years of experience in product development of complex formulations and delivery systems including long-acting injectable, pulmonary, nasal, transdermal, and oral formulations for peptides, proteins, antibodies, oligonucleotides, and small molecules.

**Sharon Lee Rhodes, Ph.D.**
Dr. Sharon Rhodes is Executive Chairman of Drug Delivery Experts and the majority shareholder of the company. Dr. Rhodes started her career in consumer products at Clorox working on brands such as Pinesol and Clorox Cleanup, and in domestic and international beverage product development at PepsiCo.

**Lawrence D’Souza, Ph.D.**
Synthetic Chemistry, Process Development, Analytical, Formulation

**Franco Ferrari, Ph.D.**
GMP Operations and Microbiology, Recombinant Protein Engineering, Clinical Manufacturing

**Laxma Reddy, Ph.D.**
Formulation and Drug Delivery, Analytical, Process Development, Small Molecule and Biologics
